

# Extensiv Network Manager

Extensiv Network Manager provides the technology to connect and operate a reliable network of geographically dispersed, owned, or contracted warehouses.

For 3PL warehouses looking to scale their business and compete in today's market, Extensiv Network Manager delivers a fulfillment platform to build and manage a reliable network of warehouses or partner warehouses that can extend geographic reach, offer greater services, and enhance SLAs—improving your bottom line and your customers' experience!

## How does Extensiv Network Manager benefit you?

- **Simplicity:** One system and one team get you global opportunities.
- **Growth:** For you and your customers without the typical challenges.
- **Profitability:** Quicker delivery, less cost, and happy customers equals more money.

Our 4PL consulting team can help you find partners, make agreements, and optimally set up your network to reduce your cost and expand your business as efficiently as possible. Your initial consultation is free.

Let us help you reach your expansion goals.

## Benefits of Extensiv Network Manager

- **Expand your warehouse capacity and geographic reach** with trusted 3PL partners from [Extensiv's Fulfillment Marketplace](#).
- **Increase profitability** by owning the customer relationship and managing their fulfillment activities through network warehouses.
- **Get full visibility** – all in one place – to your customers' inventory, order, and transaction data across all warehouses without duplicate entry or complicated integrations.
- **Give your customers** the ability to quickly expand into new markets, reducing delivery time and freight cost.
- **Support resources for migrations, analytics, and consultations** to help build complete fulfillment solutions for you and your customers.

## Core Features

- **Complete visibility:** Inventory and transaction details across all networked warehouses and a single, dedicated warehouse and customer processing portal.
- **Order routing:** Automatically send orders to the best fulfillment center in the network based upon virtually unlimited business rules, and seamless order flows from cart to the WMS – with real-time order processing status across all servicing facilities.
- **Seamless inventory management:** A holistic view of inventory levels across network warehouses.
- **Expert help and guidance:** Let our 3PL and 4PL experts walk you through the process step by step, providing expert guidance based on our experience in the field.
